Keeping You Safe In Your Rugby Club

1: Who are we?

Hi - We are the Club's Safeguarding Officers, Neil and Gill.

Neil has children who have played and still play for Southport and Gill has grandchildren playing for the Club. She also has other roles such as Team Admin and Membership Secretary. Sometimes Neil tries to play himself as well as coaching.

3: What should you do?

If you are worried about something, you could start by talking to your mum or dad, coach or team manager, or one of us. We will then ask other people what has happened and try to make things better.

We will have to write it down so we can remember and we may have to talk to other people who really need to know.

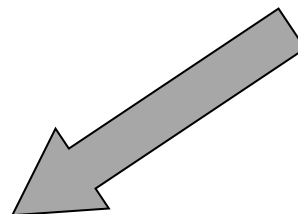

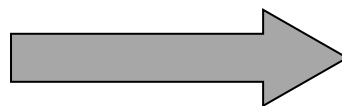

2: What do we do?

We try to make sure that everyone who is under 18 years old is safe and having fun at the club. It doesn't matter if you are playing, watching, helping out or even if you have gone to an away match or on tour. We also check all the coaches to make sure they are OK to look after you. We also try and get everyone to behave properly.

4: What then?

If the problem is another child then we will speak to their mum or dad. If it's someone who is in charge we will speak to the RFU at Twickenham to help. We can also speak to the police or social services if it's serious.

Then we decide what needs to be done. This could be telling them not to do it again or asking them to leave the club but the most important thing is everyone's safety and well-being.

So, if you need to talk to us about something you can come and see us or ring us at home:
